Claims 1 to 18 are pending.

***Drawings***

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the shield at least partially surrounding the write device set forth in claims 7-13 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

2. Claims 7 to 13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 7 sets forth "a shield at least partially surrounding the write device", however outside of claim 7 there is no discussion or depiction in the disclosure of such an embodiment and the mere broad mention of such a structure in claim 7 is not considered adequate to provide enablement in the present situation of how such a structure would be arranged and would operate, particularly when considering the differences in the extent and function of perpendicular write element structures versus perpendicular read element structures.

Art Unit: 2652

***Allowable Subject Matter***

3. Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention as "the read device" lacks adequate antecedent basis.

4. Claims 1-6 and 14-18 are allowed. Claims 7 to 13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first and second paragraphs, set forth in this Office action.
